Total \$832,406.52

A deposit account in Coman-
che that most people never think

the city are considered, is the
Postal Saving Deposits at the
local Post Office.

Deposits of Comanche County
citizens at the Post Office are
a little more than \$55,500.00
according to Postmaster J. R.
Fanes.

These deposits added to those
of the two local banks, bring
the total deposits in Comanche
to \$832,406.52. The combined de-
posits are the largest since those
of 1928.

Postal Saving deposits are
mostly in small accounts and
no account can exceed \$2500.00.

PEANUT SIGN-UP
PROBABLY WILL
BEGIN JAN. 28TH

County Agent Barton Sets Date
And Asks That Farmers Get
Information Needed

The peanut sign-up will begin
in Comanche County probably on
Monday, Jan. 28th, according to
County Agent J. A. Barton, who
says that the contract will be
for one year only, 1935.

Farmers, he states, can re-
duce 10 per cent from either
the 1933 or 1934 acreage or
take the average of the two
years and not reduce any but
still receive pay at the rate of
either \$2.00 per acre or \$8.00
per ton for the 1934 yield. The
minimum of \$2.00 per acre will
be for the amount allowed to
be planted in 1935.

Before farmers can sign up
they must plot off their 1934
acres and give the feet or yards
from corner to corner and have
two neighbors certify that to
the best of their knowledge and
belief that the figures are cor-
rect. This plot together with a
statement from the thresherman
as to the number of bushels
threshed in 1934 is all that is
necessary before one can sign
up. If one is to use 1933 acres
as a base or as the average
with 1934 a statement also from
two neighbors should be secured
stating the number of acres in
1933 and 1934.

Mr. Barton states that the
sign up will take about ten to
twelve days and all who intend
to sign are urged to get their
yield for 1934 and plot of their
1934 or 1933 acres or both at
once.

POLL PAYMENTS
ARE LIGHT HERE

Constitutional Amendments Are
Expected to Be Voted On

With only twelve more days to
pay poll taxes in order to qual-
ify as 1935 voters, less than
one-tenth of those assessed had
paid their poll tax up to noon
Tuesday. At that time 692 poll
taxes had been paid out of an
assessment of more than 7000.
Last year 1290 persons had
paid their poll taxes by Jan. 15
and the total was brought to
3768 before the deadline date of
February 1st.

While this is an off election
year, voters are not expected to
be idle. School trustee elections
will be held the first Saturday
in April and City elections will
be held the first Tuesday. Those
who keep up with the affairs of
the State say that there is al-
most sure to be a State-wide pro-
hibition election during the year
and likely a vote will be taken
on the old age pension plan and
other proposed State constitu-
tional amendments.

COMMITTEE REPORTS THAT
PLANS RECEIVING APPROVALFARMERS HERE
GET \$262,755 IN
A. A. A. BENEFITS

Busiest Year in History of
County Agent's Office,
Barton Reports

Comanche County farmers re-
ceived \$262,755 in A. A. A. pay-
ments during 1934, the busiest
year in the history of the County
Agent's office, according to the
annual report made this week
by J. A. Barton.

Benefit payments were: Cattle,
\$132,777; Cotton, \$65,251; Corn,
Hogs, \$41,160; Wheat, \$8,828;
Sheep, \$11,026; Goats, \$3,649.

Drought activities and A. A. A.
contracts had much to do with
the enlarging scope of the work
in Comanche County as perform-
ed by Barton and his assistant,
Tom Wortham. Approximately
2700 farmers, landowners, ten-
ants and others were served per-
sonally during the year.

Due to the continued A. A. A.
work for the year 1934, not as
much demonstration could be car-
ried on as heretofore.

Ninety-six 4-H Club members
turned in records this year on
poultry, corn, maize, cotton, pe-
anuts, sweet potatoes, Irish po-
tatoes, melons, tomatoes. These
club members made a profit of

DEBATE SUBJECT
IS INTERESTING

Question Is of Vital Interest
To Millions of People

The question for debate among
Texas high schools this year
is stated as follows:

Resolved, That the Government
should own and operate all elec-
tric light and power utilities.

"This question," according to
J. O. Swindle, of Newburg, who
has been elected Director of
Debate in this county, "has the
great advantage of being a time-
ly one. Under the New Deal one
of the great problems concerns
generation and distribution of
electric power. The TVA is un-
dertaking to furnish a measur-
ing stick by which the justice
of rates may be judged over the
entire country. The Federal Pow-
er Commission is now engaged in
a most exhaustive inquiry into
this great industry which affects
the daily life of millions of our
people."

"The question to be debated
is, of course, one of public policy.
There is much argument on either
side. A great many authorities
believe that an industry of this
nature cannot be conducted ef-
ficiently by any government
agency. Other authorities, just
as competent and just as sin-
cere, believe there should be a
shift from private to public ow-

City and Property Owners On
Highway 81 In City Will
Share the Expense

A committee composed of Mrs.
B. W. Speed, Claude Cox, Gail
Dudley and C. W. Williams, are
working to the interest of pav-
ing Highway No. 81 to the City
Limits of Comanche to 30 feet
instead of 18 feet as specified in
the contract held by the Morgan
Construction Co., and reports
that property owners along the
route are enthusiastic about the
plans.

The cost of widening the pave-
ment in the city limits, that is
to the Palace Service Station,
will be approximately \$480.00
according to Mayor M. Coleman,
who states that plans call for
the City of Comanche to pay
half that amount while property
owners on the street will pay
the other half.

Mayor Coleman states that it
is practically assured that the
widening will be done and that
the Morgan Construction Com-
pany will do that work in con-
nection with the laying of the
18-foot section on the entire
route from the corner of the
square here to De Leon.

Only the additional 12 feet
over the 18-foot width of top-
ping will be paid for by the City
and property owners.

Governor Allred and Practically
All Lawmakers Under 40

Dale Miller, Texas political
writer, points out that the des-
tiny of Texas as far as govern-
ment is concerned, is now in the
hands of young men.

James V. Allred, the governor,
at the age of 35 is the youngest
governor of the 48 states in the
Union. Jerry Mann, his Secretary
of State, was an S. M. U. foot-

ago.

William McCraw, the new At-
torney General, is a comparatively
young man and piloted his own
airplane from Dallas to Austin
to take the oath of office.

Thirty members of the House
of Representatives are under the
age of 30 and 83 are under the
age of 40. There are but 15
who have reached the age of
60 and only one is 70 years of
age.

One member of the State Sen-
ate is 27 years old and two-
thirds of the members are under
40, the writer states.

Hamilton County Child Is Killed In Gun Accident

A happy family circle was ruthlessly broken by tragedy on Tuesday, Jan. 8, when Ruth, the two-year-old daughter of Mr. and Mrs. W. Charles Schneider, of the Aleman community, Hamilton County, was killed almost instantly by a shot from a target gun that was thought by her little sister, Estelle to be empty, according to the Hamilton Herald-Record.

On Tuesday afternoon, the baby ran out into the yard at the family home to meet her sister and brother, Estelle and Melvin, who were returning at about five o'clock from school at Aleman. Estelle, who is about ten years old, was entrusted with a repeating target gun to take to the house from the field where her older brother, Bruno Schneider, was blowing. It is said the little girl shot the gun, which was loaded, several times while she was on her way to the home. A shell hung, and she decided there were no more in the gun and when she reached the yard snapped down the hammer. A shell that was in the magazine of the target forced the lodged shot out and a bullet entered the eye and passed through the head of Ruth, who expired almost instantly.

I have gained back my strength and flesh. —Emma Withers, Box 50, Mont. N. C.

T. P. & L. Workers Attend Meeting At Brownwood

The Semi-Annual Efficiency and Safety Meeting of the employees of the Texas Power & Light Company, Brownwood district, was held at Hotel Brownwood Monday night. Fifty-one members of the Brownwood organization were present, including the employees at Brownwood, Comanche, Dublin and Stephenville, according to the Brownwood Bulletin.

Talks were made by Roeger McClure, supervisor of merchandise sales; Todd R. White, superintendent of distribution; W. G. Sreckert, chief clerk; and W. P. Murphey, district manager. Mr. Murphey talked about the history of the electrical industry covering the period of the past fifty-five years, during which time he has given forty-one years of service to two utility companies, having been located in Brownwood as district manager since July 1, 1913, a period of nearly twenty-two years.

Mr. Murphey called to the attention of the employees of his district the time when small isolated plants were operated in Brownwood, Comanche, Dublin and Stephenville, at which time service was only furnished during the night hours and one day per week so that the housewives could do their ironing, and covered his many years of experience up to the present time when service is furnished from mammoth generating stations over transmission lines and adequate distribution systems, which gives to the company's customers continuous, uninterrupted service.

Those who attended from Comanche were Mr. and Mrs. J. H. Kemp and Mrs. Tom Moore.

Miss Jaunita Barrett spent the week end at Tarleton College as the guest of Miss Martha Gain of Dublin.

Miss Kathryn Kieser of Frederick, Oklahoma spent the week end in Comanche with Rev. Gordon Barrett and family.

House Rejects

Proposal Offered

By Tom Blanton

After Representative Blanton threatened to "impeach" members of the Home Loan Bank Board, the House Friday rejected 127 to 28 an amendment by the Texan to reduce the board's salary and expense appropriation for next year from \$264,043 to \$1, according to an Associated Press dispatch dated at Washington.

Earlier Representative Sweeney, an Ohio Democrat, had proposed an investigation of "irregularities" in administration of the Home Loan Bank.

"I am going to ask the President to remove the present members of that board, and if he doesn't then I'm going to exercise my prerogative as a member of Congress and come here on this floor and impeach them," Blanton said.

"We've got to stop this automatic rule of public business. You've got to show these bureau chiefs that they've got to respect the representatives in Congress."

After once approving Blanton's motion on a voice vote, the House heard Representative Woodrum, Democrat, Virginia, term Blanton's proposal "ridiculous, silly and childlike," and then voted it down.

Mrs. A. L. Fisher and Mr. and Mrs. W. C. Fisher spent last week at Lorena, Lubbock, Crosbyton and Kalgary, visiting relatives.

The State Highway Commission has definitely stated that as soon as the right-of-way is fully secured it will let a contract for construction of the new road, however, Judge Scott could not be positive that all business relating to the project would be completed in time for the Commission to advertise and let contracts at its January meeting.

nership in order best to subserve the interests of the people as a whole. Thus the question as stated makes an almost ideal one for high school debate. It touches very intimately almost every community in Texas.

"Great power projects are now under way in Texas, and the problem of their administration is a very pressing one. The study of this question by high school students under competent direction and with the stimulus of the debate contest to induce hard work on it should be productive of fine results.

Schools intending to enter should file entries with Mr. Swindle before February 1.

Abundance of debate material on this season's Interscholastic League debate question is available, according to Mr. Swindle. "Much of this material is free," he said, "and some of it at nominal cost.

"Of importance to the negative side is the special bulletin by Judge Clarence R. Wharton, of Houston. Member-schools may obtain any number of copies of this bulletin free of charge by addressing the Interscholastic League Office, University Station, Austin, Texas.

"The October number of the Congressional Digest, containing much excellent material on both sides, is now available, also. The regular League debate bulletin, No. 3438, contains 265 pages, and presents both sides. The Municipal Utilities Record, 935 Tower Building, Dallas, is publishing valuable material each month and offers a special rate to high schools.

"The school which utilizes the material offered will do nothing short of providing a sound course in one special aspect of government for the pupils who enter the tryouts."

KATHRYN ROBERTSON IS BURIED AT SAND HILL

(Contributed)

On Dec. 29, Kathryn Lammorne Robertson, the infant daughter of Mr. and Mrs. R. H. Robertson died in the Central Texas Hospital, Brownwood. She was sick only a short time and her death was a shock to the family as well as friends.

She was born March 9, 1934. She leaves her father, mother, two brothers and a number of relatives who mourn her loss. She was a sweet cheerful, healthy child, and her going leaves a vacant place in the home, that cannot be filled, but we take hope and are made to rejoice as we think of Edith Cherry's tribute to, "The Children In Heaven."

"Oh, what do you think the Angels say?" Said the Children up in heaven; "There's a dear little girl coming home today, She's almost ready to fly away From the earth we use to live in. Let's go and open the Gates of Pearl"

Open them wide for a new little girl."

Said the Children up in heaven. "God wanted here where His little ones meet— She shall play with us in the Golden Street; She has grown too fair; she has grown too sweet; For the earth we use to live in; She needed the sunshine, this dear little girl. That gilds this side of the Gates of Pearl"

Said the Children up in Heaven "Fly with her quickly, O Angels dear!"

Said the Children up in Heaven, See—she is coming. Look there, At the Jasper lights upon her hair, Where the veiling clouds are riven!"

Oh! hush, hush, hush All the swift wings furl for the King Himself, at the Gates of Pearl, is taking her hands, dear tired little girl, And is leading her into heaven. —A Friend.

Musical Comedy Will Be Given At Gustine High

"Cupid Up To Date," a three act musical comedy using 100 local people will be staged at the high school in Gustine Friday evening, Jan. 25. The theme of this beautifully costumed rollicking comedy is a conflict between love and science. Science wins out for a while throwing the whole world into turmoil, changing people into cats, monkeys, stars, clocks, moons and various forms. After much laughter and beauty, love again regains control and the world is made normal again.

Cupid is represented by little Miss Charline Howell. Harvey Smith takes the part of Father Time and Common Sense is portrayed by Miss Hortense Franks. Bully and Domestica, the young married couple is played by Mr. and Mrs. Cecil Satter. Dolly Extreme, very modern young lady is played by Miss Ura Mae Haggard and Buzece, Will Steady is taken by Bill White. Senator Bug and John Scientist, representing the scientific world are portrayed by Miss Alda Morton and Alton Mercer. The twins who furnish many laughs are Miss Louise Franks as Cora Dumb, Miss Flo, Allen as Dora Dumb; Gaston Raul as Eddie Freeverse and Edell White as Freddie Freeverse.

Many beautiful and amusing effects are achieved in the production by the clever costuming. The choruses and routines are done by school children in costumes.

The music for the entire production will be played by Miss Myrtle Webb, pianist; W. R. Miller, violinist and Walter Johnson at the drums. Lee Miller will give a specialty tap dance.

On Sunday night, Jan. 6, between the hours of 6 and 10 the home of M. D. Stewart at De Leon was entered and \$87.00 in silver taken, also a 5 dollar bill. No one was at home at the time. Entry was evidently made through the rear door with a skeleton key.

More About ALLRED INAUGURATED (Continued from Page 1)

in the sun, drawn sabers of the guard gleamed as they formed a canopy under which the inaugural procession moved to the platform. Members of the families of the principals beamed pride and satisfaction.

Allred succeeds Mrs. Miriam A. Ferguson as chief executive of this state and Woodul succeeds Hon. Edgar Witt as Lieutenant Governor.

Standing on the steps of Texas' great granite Capitol, Governor Allred delivered a ringing address, pledging co-operation with the national recovery program and the use of all his powers to stamp out crime in Texas and enforce the law, states the Fort Worth Star-Telegram.

His first official act, after being rushed to the Governor's suite under the watchful protection of state highway patrolmen was to sign a receipt for \$1,500.00 in federal funds, making it available for state relief purposes.

Mrs. Ferguson, voluntarily retiring after her second term as Governor, had no part in the program other than to witness the ceremonies. As she came on the platform in the official procession, she and her husband, former Governor James E. Ferguson, were warmly greeted by Allred, although they had been strong political antagonists.

Second Birthday Ball To Be Held For President

The Second Birthday Ball for the President again will be observed throughout the nation, on Wednesday, Jan. 30, when a series of benefits will be held to raise additional funds to combat infantile paralysis.

Plans for the event have been announced by Henry L. Doherty, national chairman.

More than 5,000 communities over the country participated in the original Birthday Ball held last January 30, when a fund of more than one million dollars was raised for the Georgia Warm Springs Foundation to continue its work in treating victims of infantile paralysis.

No part of the proceeds will go to the foundation this year however. At the suggestion of President Franklin D. Roosevelt, in whose honor the nation-wide event will be held, has suggested that 70 per cent of the proceeds raised by each local Birthday Ball will be retained in its respective geographical area, under the direction of a committee of such area, to rehabilitate their infantile paralysis victims. The balance will go to the national committee for delivery to the President, to be presented to a national commission, which he will create, to widen research efforts aimed to wipe out the disease itself, exactly as medical science has successfully combated smallpox, diphtheria, typhoid fever, yellow fever and other maladies.

PLANT NOW

We are having a rather dry winter. I am glad of this though stock water is still scarce. It may seem untrue to some people but it takes more rain to make a good crop after a wet winter than it does after a dry one. Now when you first think of this you may think, ridiculous. Think back a little, and if you have kept a record, so much the better; you will see that I am right. A snow through the winter is better; but if it rains all winter it has a tendency to leach out all the available plant food in the soil; and the poorer the land is the more moisture it takes to make a crop. Nature has fixed it so there will be just so much plant food available each year and big winter rains get a lot of the plant food available that year. Just the same the rain that falls on a man's farm belongs to that man just like the soil does. It takes soil and rain to make a crop as well as other things, but leave out either of these two things and you won't have much crop. For this reason if it rains at any time and you let the water get away from you, you are losing that much of your property. This is the reason all farms should be terraced and dams built across the gullies. You just as well let your pigs get out and run away as to let all your moisture run away. And this brings me down to what I meant to say. I believe this is a good time as you will ever get to set trees. You can water them a little if the ground is real dry and the Spring rains will cause them to make the finest growth.

WEAK AND SKINNY MEN, WOMEN AND CHILDREN

Saved by new Vitamins of Cod Liver Oil in tasteless tablets.

Pounds of firm healthy flesh instead of bare scraggy bones! New vigor, vim and energy instead of tired listlessness! Steady, quiet nerves! That is what thousands of people are getting through scientists' latest discovery—the Vitamins of Cod Liver Oil concentrated in little sugar coated tablets without any of the horrid, baby taste or smell. McCoy's Cod Liver Oil Tablets, they're called "Cod Liver Oil in Tablets", and they simply work wonders. A little boy of 8, seriously sick, got well and gained 10 lbs. in just one month. A girl of thirteen after the same disease, gained 5 lbs. the first week and 5 lbs. each week after. A young mother who could not eat or sleep after baby came got all her health back and gained 10 lbs. in less than a month. You simply must try McCoy's at once. Remember if you don't gain at least 5 lbs. of firm healthy flesh in a month get your money back. Demand and get McCoy's—the original and genuine Cod Liver Oil Tablets—approved by Good Housekeeping Institute. Refuse all substitutes. Insist on the original McCoy's—there are none better.

NOTICE ISSUED TO WATER USERS BY THE COUNCIL

Service Will Be Discontinued If Bills Are Not Paid On or Before 10th

At a recent meeting of the City Council, an order was passed to discontinue the water and sewer service to all persons, who do not go to the City Hall and pay their bills, on or before the 10th of each month.

This order was passed, and will be made very effective, and all persons are hereby warned that if you want the City water and sewer service you will have to pay your bills promptly.

Many people do not want to pay their water and sewer bills and seem to be of the opinion that they do not have to pay for those items, but now, we want to say to those people, in a most kindly manner, that all people look just alike to the City Council, and regardless of who the persons are, they have got to pay those bills, or make satisfactory arrangements about them, or off come your connections.

The Council has been very patient—and very helpful to many people—and it has been our delight to be very helpful if possible to all the citizenship, and a helpful attitude will be our position in the future, but it must be known, and warning is hereby given, that part of this citizenship can not pay for the water and sewer the other part uses.

This City is a Government, BY THE PEOPLE, AND FOR THE PEOPLE, and there SHALL BE equal rights to all people, and special privileges to no person.

These words are spoken in a most kindly manner, but this notice will serve as a public warning to all persons that they must go to the City Hall on or before the 10th of each month and pay their bills, or the service will be discontinued.

Respectfully,
CITY OF COMANCHE,
By M. COLEMAN, Mayor.

Praise Is Given Work of Local Boy At College

Gabe Lewis, Dean of Men at John Tarleton College is high in duct of Truman Bratton, son of Mr. and Mrs. E. J. Bratton, who live near Comanche.

In a recent communication with the youth's parents, Mr. Lewis said, "I feel obligated to write you and express to you my deep gratification for the excellent record being made here by your son, Truman. I am sure that home training has much to do with excellent records made in college, and I certainly feel that at least a large portion of the honor belongs to you."

Commenting further, the Dean said: "In my capacity as Dean of Men, I am probably in closer contact with the boys than anyone else, and I want to assure you that my dealings with your son have always been very pleasant. He ranks high scholastically and is consistently on the honor roll. We have not a single demerit charged against him. I consider this a most excellent record, and Truman one of our outstanding students."

L. B. Russell of Comanche, will award a Good Citizenship Medal on behalf of the Sons of the American Revolution, to any pupil of the seventh or eighth grade in Comanche County, whom his or her school mates may select as worthy under the conditions to receive the same, according to his announcement. Mr. Russell states that he can award but one, though others may be secured for additional schools at a very small expense to the authorities.

He states that, having awarded these medals heretofore to Comanche, De Leon and Van Dike schools, they are excluded from the present offer, unless they feel enough interest in the matter to pay the expense. But, he states, if the superintendents of other graded schools in the county feel interest enough in the matter to write him to that effect, he will be pleased to give details.

Corn-Hog Plan Altered At Dallas To Help Farmers

More flexibility concerning the planting of other crops on acreage taken out of corn production will be allowed farmers this year under the Government corn-hog program; it was brought out when rule changes were outlined at meetings held last week at Dallas, according to the Semi-Weekly Farm News.

Corn payments this year will be 35c a bushel on the appraised yield of land taken out of corn cultivation instead of 30c. Last year farmers could not plant acreage taken out of corn production in other crops, except in some specified cover crops. Purpose of the change this year is to build up reserves of forage and rough grains.

More flexibility also will be allowed farmers this year in the average acreage that can be taken out of production. Last year from 20 to 30 per cent of the average acreage of corn grown in 1932 and 1933 could be taken from cultivation with farmers receiving payment for it, but this year the farmers may take from 10 to 30 per cent out of corn cultivation and receive compensation.

The cost of digging and filling a 60 foot trench silo was only \$18.50 for an estimated amount of 25 tons of silage, W. T. Perryman, Corvett County, told D. W. Sherrill, farm demonstration agent.

Mr. Perryman declared that the \$18.50 covered the cost of labor and all other expenses, and that the estimated replacement value of the 25 tons of feed in the silo is \$250. "In a time of short pasture and feed the use of trench silos and the saving of feed that otherwise would be wasted is very important," Mr. Perryman says.
